Education

MIT World Peace University, Pune

2022 - 2024

- Branch: MCA | CGPA: **8.23**

IBSAR, Navi Mumbai

2019 - 2022

- Branch: BCA | CGPA: **9.04**

Experience

Internship at Center for Cyber Security Studies & Research

July 2024 – October 2024

- Participated in a hands-on digital forensics boot camp, gaining practical experience with tools like FTK Imager and Registry Explorer.
- Conducted vulnerability assessments using OpenVAS, Nmap, and Nessus.
- Explored social engineering tactics and IT/OT convergence for critical infrastructure protection.

Skills

Penetration Testing | Networking | Linux | Python | Bash Scripting | Web Application Pentesting | Application Security | Network Security | Mobile Pentesting | GenyMotion | Burpsuite | Nessus | Nmap | Metasploit | Acunetix | Vulnerability Assessment | Mobile Pentesting | Hydra

Certifications

Certified Information Security Consultant (CISC)

II Security

Certified Ethical Hacker CEHv12

EC-Council

Cisco Cyber Ops Associate

CISCO

Certified Cyber Security Analyst

CyberWarefare Labs

Projects

Web Application VAPT – Vulnerable Websites

2024 - Present

Performed a comprehensive security assessment on a deliberately vulnerable web application to identify and analyze security flaws.

Key features:

- Conducted reconnaissance, scanning, and exploitation using tools like Burp Suite, Nmap, and OWASP ZAP.
- Identified and documented vulnerabilities such as SQL Injection, XSS, and authentication bypass.
- Provided remediation recommendations based on OWASP Top 10 best practices.
- Compiled findings into a structured report, including an executive summary, risk analysis, and mitigation strategies.

Home Lab

2023

Created a virtualized cybersecurity testing environment using Kali Linux and Windows 10 virtual machines.

Key features:

- Configured Kali Linux and Windows 10 virtual machines for security testing and training purposes.
- Conducted penetration testing and vulnerability assessments in controlled environment.
- Improved practical skills in networking, Linux Administration, and ethical hacking techniques

Academic and Extracurricular Achievements

Mastercard Cybersecurity virtual experience program on Forage - December 2024

- Completed a job simulation where I served as an analyst on Mastercard's Security Awareness Team
- Helped identify and report security threats such as phishing
- Analyzed and identified which areas of the business needed more robust security training and implemented training courses and procedures for those teams

University 4th rank Throughout Bachelors
